

Mutants Synthesized. Mutagenesis Simplified.

Make your site directed mutagenesis precise, simple and affordable with our mutagenesis by synthesis offers.

Site Directed Mutagenesis By Synthesis Offer

How to qualify

Product: Clonal Genes

Number of mutation per genes: No Limit

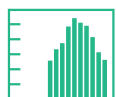

Mutation type: any number of point mutation, deletions, and/or insertions #

Pricing: Discounts on every variant

(Please kindly contact your Decode sales rep for enquiry)

Traditional site-directed mutagenesis can be time consuming and imprecise. Site directed mutagenesis through synthesis eliminates these complexities, providing you with precisely engineered sequences tailored to your exact specifications. From protein engineering to functional genomics, incorporate precision synthesis of mutants into your workflow and focus on achieving your research goals

How it works

Define your template and mutation specifications.

Contact your sales rep to begin your mutagenesis order.

Twist synthesizes your new site directed mutagenesis gene variants and clones it into your vector.

We ship your order to you in as few as 4 business days*

Terms and Conditions

- This promo is only available to customers in the Asia Pacific region (excluding China and Japan). Pricing is subjected to changes.
 - To enjoy the special service of site directed mutagenesis, please quote your previous order number or approach Decode Science support.
 - Each mutation is defined as any combination of bases change within a 10 codon spread over the entire gene.
 - Average turnaround time for Express Clonal Genes is 4 -7 business days. This time will vary based on complexity and length of the sequence. Orders placed outside of the US will incur additional delivery turnaround time. Turnaround time for Clonal Genes is subject to change based on customizations and complexity.
- Additional specification: 50ng - 2 ug.
